Analysis

Methods:

[Describe all analyses conducted in sufficient detail that they could be replicated exactly. These should match what was proposed in the Analysis Plan. Any departures should be noted below (see section Departures from Analysis Plan). Include a link to your code.]

Results:

[Include results of all analyses described in the Methods section, including checks on model assumptions etc. Include tables & graphs. If results are contained in other files, include links to those files here.]

Departures from Analysis Plan:

[Describe any departures from the Analysis Plan, including any exploratory analyses. Include rationales for these departures and statistical adjustments made to account for unplanned tests.]

Limitations:

[Describe any limitations associated with the analysis, including any limitations that only became apparent during the course of the analysis.]

Findings

[Describe the findings (significance to policy or program).]
